Comments from Cooperative Extension Service County Agents

“Rain scattered across county several days with most areas receiving some rain. There was some warm season forage hay harvested during the week.”

- Mike Andrews, Randolph County

“Farmers continued intense irrigation on all crops. Insect and disease pressure continue to increase in corn, soybean, rice, and pasture.”

- Brent Griffin, Prairie County

“High temperatures and little rain have combined to begin the dry cycle for Union County. Pastures and hayfields have slowed considerably. Producers continue to fertilize with faith that rains will return.”

- Glenda Sutherlin, Union County

“Most of the county received a much needed rain late last week giving farmers a break from irrigating.”

-Allen Davis, Greene County

“Heat advisory in affect for 3-4 days this week. Heat index approaching 110. Cattle are looking thin, not poor condition, but will be if conditions continue without the farmer making adjustments. Rain is needed.”

- Kaycee Davis, Howard County
